

Service Request

In order to effectively administrate and manage Security Control Integrators service organization we will require specific information from your company.

If and when you require service on your systems we request that you do the following: Call (973) 227-2110 or email service@securitycontrolintegrators.com and provide the information below.

1. The address and specific location of the service: state, city, street
2. The nature of the service request
3. The urgency of the service request
4. The onsite contact and phone number
5. The phone number where we can contact you

When we receive the service call, someone will contact you and you will be given an approximate time a technician will be on site.

Upon completion of the service call the technician will contact you, during normal business hours, to discuss the nature of the service call and have you sign off on the service. If the service requires additional time, parts, or additional support we will contact you with a schedule of completion.

Thank you for your business.
We look forward to serving you.
